- CSS in JS

## PROJECTS

**G2G - Gotta Go** | <https://github.com/baeddavid/G2G>

- Full-stack progressive web application for finding and filtering nearby bathrooms. Made with React, Apollo, GraphQL, and Google Maps API.

**MTG Limited Draft Pick-Order Utility** | <https://github.com/joe-gerhard/mtg-draft-sort>

- Full-stack web application made with Node.js, Express, MongoDB, Mongoose, JavaScript, and the magicthegathering.io API.

**Django Unlibbed** | <https://github.com/joe-gerhard/django-unlibbed>

- Madlib web application based on the Django Unchained movie script made with Python and Django.

**Solitaire** | <https://github.com/joe-gerhard/Solitaire>

- Solitaire web application made with vanilla JavaScript

## EXPERIENCE

### Software Engineering Fellow

General Assembly | Software Engineering Immersive | 2019

- Participated in a full-time immersive Software Engineering course, completing in-class projects, hackathons, and personal projects focused on real-world applications of web development principles and best practices.
- Developed a portfolio of full-stack web applications using multiple web development languages, frameworks, APIs, and design paradigms.

### Lighting Designer / Crew Chief

Ilios Lighting | Austin, TX | 2014 - 2019

- Programmed and operated light shows for world-famous music festivals (ACL, SXSW, Float Fest, Levitation, among others) and large-scale corporate galas on the industry's most powerful lighting consoles (GrandMA, Hog, M-Series).
- Led crews of highly skilled lighting technicians to build complete lighting rigs including power distribution, truss rigging, and tech-ing fixtures.
- Actively engaged with clients and coordinators on the job site to ensure their complete satisfaction at every step of the build process.

### **Production Manager / Owner**

Safehouse | Austin, TX | 2015 - 2019

- Ran a multi-camera local music live stream on Twitch.tv featuring three up-and-coming Austin artists every week and broadcasting live to viewers all over the globe.
- Led a production crew of skilled technicians to put together a cohesive and entertaining live broadcast week after week.

### **Lighting Technician**

ATX Events | Austin, TX | 2017 - 2019

- Brought to life gorgeous large-scale lighting designs in a corporate environment.
- Worked with state-of-the-art intelligent lighting fixtures to bring our designer's visions to life to delight our clients.

### **Audio Technician**

Audio AZ | Queen Creek, AZ | 2010 - 2014

- Constructed world-class public address systems for all manner of events ranging from Blues On The Green to The Phoenix Snowbird Festival.
- Regularly mixed live audio on leading industry-standard digital mixing consoles.

### **Tour Manager**

Foxy Shazam, Eyes Set to Kill | 2007 - 2010

- Advanced show details with concert promoters across the country; communicated band riders/stage needs; negotiated payment guarantees, and gathered parking/lodging details.
- Communicated directly with band management, regularly keeping them up to date with the band's personal and professional needs, managed all band finances, tracked merchandise, organized flight information, drove a van and trailer thousands of miles, and made it home in one piece every time.
- Regularly resolved personal conflicts (i.e. band therapist).

## **EDUCATION**

### **Software Engineering Certificate**

General Assembly | Austin, TX

### **Audio Production Technologies**

Mesa Community College | Two Semesters completed

### **Arizona State University**

Full-Ride Scholar | Four semesters completed
